# ATTACHMENT I

1) SoCalGas and SDG&E's DOT "Annual Report for Calendar Year 2011 Natural or Other Gas Transmission and Gathering Systems"

2) Amended Application, Table IV-4, Pg 30.

3) Amended Application, Table IV-5, Pg 53 and Workpaper page WP-IV-5 of 12.

4) Amended Application, Table IV-5, Pg 53.

a. Mileage numbers don't exactly match Table 1-1 due to: (1) distribution miles inadvertently in amended filing, and 2) rounding of numbers 5) L#1600 - 54 miles of existing L#1600 to be TFI'd (Amended Workpapers, WP-IX-43). After 54 new miles installed in Phase 1B (Amended Workpapers, WP-IX-1-17)

6) Sempra Amended Application, Pg 5, Table 1-1

a. Mileage numbers don't quite match Table 1-1 due to: (1) The inclusion of DOT defined distribution, and 2) rounding of numbers

7) Approximately 963 miles at SCG and 79 miles at SDGE were placed into service after 1970.

8) Miles included in Box 2 have changed when compared to the original decision tree due to the removal of all distribution segments. The segments, however, remain as part of SoCalGas/SDG&E proposal as explained in SCG-12. They have been removed from this spreadsheet because they are not DOT defined transmission lines.
